Consultation requires 3 of 3 components be met

MUST MEET EACH OF THESE

History - Detailed

Chief Complaint	Subjective; in patient words
HPI:	1-3 elements
ROS:	None
PFSH:	None needed

Physical Exam - Detailed

1 organ systems '95
or
1-5 components/bullets '97

MUST MEET
Need 2 of 3 in this category

Medical Decision Making

Straightforward = 1 point
need 2 of 3 in this category

A. Presenting Problem: *need 1 points*		
Self-limiting or minor problem	1 pt each	max =2
New problem w/o or w/ additional work-up	3 or 4 pts	
Stable problems	1 pt each	
Established worsening/unstable problems	2 pts each	
B. Data: *need 1 points*		
1 or more labs ordered and/or reviewed	1 pt	
1 or more radiology tests ordered and/or reviewed	1 pt	
1 or more any other (EKG, Stress test, sleep study, spirometry)	1 pt	
Review and summarize old records and/or obtaining history from someone other than patient and/or discussion of case with another health care provider	2 pts	
Independent review of image or tracing(not simply review of report)	2 pts	
Discussion of test results with performing physician	1 pt	
Decision to obtain old records and/or obtain history from someone other than patient	1 pt	
C. Risk: Straightforward		
Self limited or minor problem (eg. Insect bite, cold)		
Chest x-rays		
EKG/EEG		
KOH prep		
Lab requiring venipuncture		
Rest/gargle		
Superficial dressings/elastic bandages		

OR >50% of 15 minute visit was spent counseling
time must be documented
for example: TT20 >50% was spent counseling the patient on weight control, nutrition and the risk factors of smoking.

Consultation requires 3 of 3 components be met

MUST MEET EACH OF THESE

History - Detailed

Chief Complaint	Subjective; in patient words
HPI:	4 elements or 3 chronic's & status of each
ROS:	2-9 systems
PFSH:	1 problem pertinent

Physical Exam - Detailed

2 -7 organ systems or body areas '95 (1 system/area must be detailed)
or
12 components '97

MUST MEET
Need 2 of 3 in this category

Medical Decision Making - Low

Low = 2 points
need 2 of 3 in this category

A. Presenting Problem: *need 2 points*		
Self-limiting or minor problem	1 pt each	max =2
New problem w/o or w/ additional work-up	3 or 4 pts	
Stable problems	1 pt each	
Established worsening/unstable problems	2 pts each	
B. Data: *need 2 points*		
1 or more labs ordered and/or reviewed	1 pt	
1 or more radiology tests ordered and/or reviewed	1 pt	
1 or more any other (EKG, Stress test, sleep study, spirometry)	1 pt	
Review and summarize old records and/or obtaining history from someone other than patient and/or discussion of case with another health care provider	2 pts	
Independent review of image or tracing(not simply review of report)	2 pts	
Discussion of test results with performing physician	1 pt	
Decision to obtain old records and/or obtain history from someone other than patient	1 pt	
C. Risk: Low		
2 or more self limited or minor problems		
1 stable chronic illness, ie: well controlled hypertension		
Acute, uncomplicated illness or injury, ie: simple sprain		
Minor surgery with no risk factors		
Over the counter drug management		

OR >50% of 40 minute visit was spent counseling
time must be documented
for example: TT30 >50% was spent counseling the patient on weight control, nutrition and the risk factors of smoking.
