### Topics this month

**Microbiology Report Results from Flowsheet**

**“Progress Note” document type change to “Progress Note – Provider”**

**Reminder – Proper Order Process for Cardiac Monitoring**

**Hospital Discharge to Horizon Home Hospice, new Medication folder**

**In-House Support**

### Microbiology Report Results from Flowsheet

The format for Microbiology Report Results from Flowsheet has been modified. While the new format provides improved viewing, it has eliminated the option to cut/paste the results into documentation. Other options for populating documentation with results are being investigated.

Previously - Double-clicking on **POS** or See Report result from Flowsheet displayed the following.

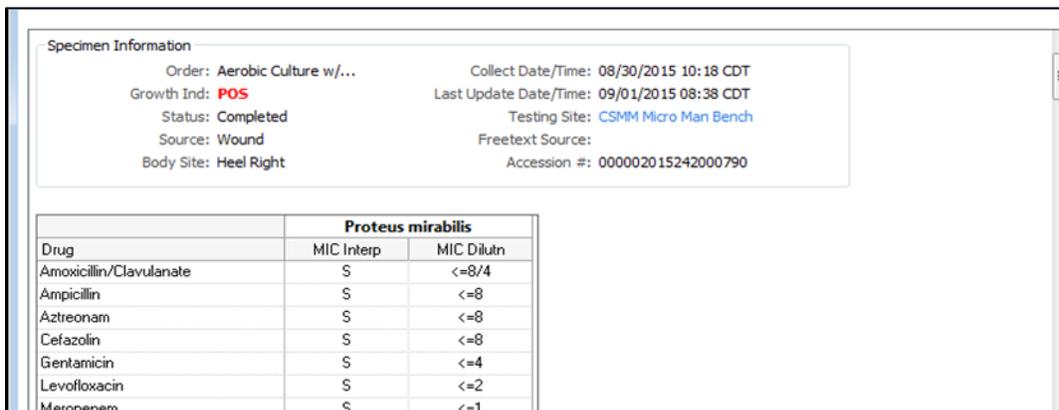

Culture, Aerobic only - Accession: 000002015242000790

Micro Reports | Susceptibilities | Specimen | Action List

Final Report - 01 September 2015 8:38 CDT -  
Few colonies Proteus mirabilis  
Few colonies Streptococcus pyogenes (Group A)

Preliminary Report - 31 August 2015 10:30 CDT -  
Few colonies Gram Negative Rods

New - Double-clicking on **POS** or See Report result from Flowsheet displays with susceptibilities face up.

Specimen Information

Order: Aerobic Culture w/... Collect Date/Time: 08/30/2015 10:18 CDT  
Growth Ind: **POS** Last Update Date/Time: 09/01/2015 08:38 CDT  
Status: Completed Testing Site: CSMM Micro Man Bench

Proteus mirabilis		
Drug	MIC Interp	MIC Dilutn
Amoxicillin/Clavulanate	S	<=8/4
Ampicillin	S	<=8
Aztreonam	S	<=8
Cefazolin	S	<=8
Gentamicin	S	<=4
Levofloxacin	S	<=2
Meropenem	S	<=1

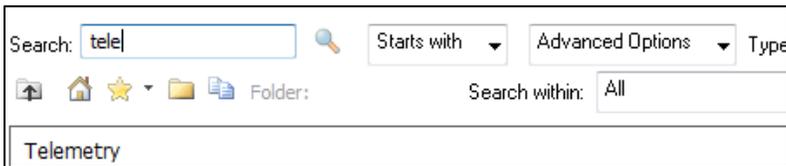

## **“Progress Note” document type change to “Progress Note – Provider”**

The “Progress Note” document type is meant for use by Physicians and Advanced Care Practitioners only. There have been some incidents of inadvertent use of this document type by nursing and other clinical staff. This misuse has caused confusion as it relates to our Computer Assisted Coding software. Thus, **starting 10.14.15, “Progress Note” will be renamed “Progress Note – Provider,”** hopefully limiting some of the confusion. This change will be retroactive to all past documents.

## **Reminder – Proper Order Process for Cardiac Monitoring**

Patients requiring telemetry monitoring must have an order for telemetry. Stating “tele” on the admission order is not sufficient.

All admission PowerPlans have a telemetry order that can be checked if needed. The order is also available with search.

The screenshot shows a search interface with a search bar containing the text 'tele'. To the right of the search bar are two dropdown menus: 'Starts with' and 'Advanced Options'. Below the search bar is a 'Folder:' field with a search icon and a 'Search within:' field set to 'All'. A search result is displayed below the interface, showing a folder named 'Telemetry'.

## **Hospital Discharge to Horizon Home Hospice, new Medication folder**

To assist with safe and efficient discharges from the hospital for Horizon Home Hospice patients, a quick pick folder has been created for discharge medications. The folder will be made available the week of October 12<sup>th</sup>. Refer to the attached job aide for further details.

## **In-House Support**

In-house support is available Monday through Friday from 8am to 4pm on both Ozaukee and Milwaukee campuses. To contact a support team member, dial Vocera and request **“EHR support.”**

Vocera numbers vary by campus.

**Ozaukee Vocera Phone: 262-243-6707**

**Milwaukee Vocera Phone: 414-585-1995**

**For urgent/emergent EHR technical assistance outside of the above hours, contact the Help Desk at 414-326-2400.**

**When asked for an extension, choose “7” for expedited transfer to a service desk analyst.**

## Job Aide – Hospital Discharge Medication Orders for Horizon Home Hospice Patients

1. From orders or via Discharge Med Rec and **Add+** button, verify that order type is “Discharge Meds as Rx”
2. In shared folder (house icon) open “Horizon Home Hospice Discharge eRx” folder.

3. This folder contains prescriptions for the following medications. Choose some or all as indicated for your patient. The orders have been prefilled with recommended dosing and quantities as requested by Horizon Hospice. You may of course adjust as indicated for your patient.

- \*\*ABHR Topical Gel (each 1mL contains Ativan 1mg, Benadryl 25mg, Haldol 1mg, Reglan 10mg)
- \*\*Atropine oph 1% solution
- Haloperidol 2 mg/mL oral concentrate
- Hyoscyamine 0.125 mg sublingual tab
- \*\*Lorazepam 0.5 mg oral tablet
- \*\*Morphine 20 mg/mL concentrate
- \*\*Prochlorperazine 10 mg oral tablet

\*\*System default on these medications is “acute” requiring that you either enter stop date/time for Rx or change to “maintenance.”

\*Stop Date/Time: [ ] [ ] CDT  
Type Of Therapy:  Acute  
 Maintenance

4. Non-controlled substances should be sent electronically to Home Care Medical Pharmacy in New Berlin

\*Send to: Pharmacy [ ]  
Apply to:  Selected Pending Prescription(s)  
 All Pending Prescriptions  
 All Pending Non-Tamperproof Prescriptions

Patient Preferred Search

Pharmacy Name	Address	City	State	Zip Code	Phone
Home Care Medical Pharmacy	5665 Westbridge D...	New B...	WI	53151	Tel: (

Pharmacy Name: home  
Address: [ ]  
City: New Berlin  
State: WI  
Zip Code: [ ]  
Phone: [ ]  
Pharmacy Type: Filter Results By:  Retail  Specialty

5. Controlled substances should be printed with eRx printer, **signed**, and placed in patients chart. These will be managed by Case Management and/or Nursing at time of discharge.
