❖ Witnessed by: Functionality on the MAR – UPDATES

A fix has been installed, effective immediately to repair the break in witness functionality with student nurses/nurse externs. Student Nurses/Nurse Tech's can now perform the witnessed by: steps in EHR.

When and How to use Witnessed by:

- **Witnessed by:** is meant for all meds indicated by policy that require a double check (i.e. subcutaneous insulin, therapeutic drips, etc.). [Medication Policy #562954]

*Performed date / time : 11/01/2013 1145 CDT

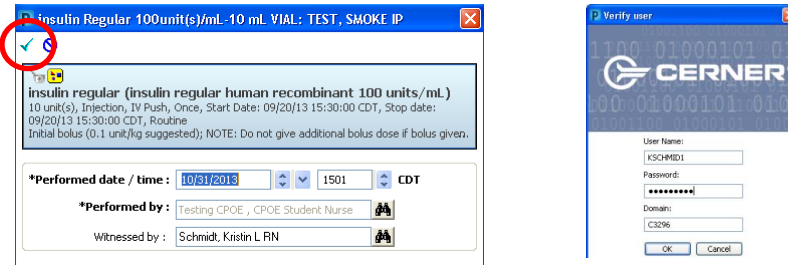

*Performed by : Schmidt, Kristin L RN

Witnessed by :

- Current workflow steps include:
 - Student Nurse/Nurse Tech, **under their own log in***, opens med on MAR
***Student/Tech must be signed in under their own credentials for pending validation**
 - CSM Staff/Instructor enters name in **Witnessed by:** box.
 - CSM Staff/Instructor enters password on **Verify user** box and clicks **Ok**.
 - MAR will show medication as **Pending Validation**

- e. CSM Staff/Instructor, **under their own log in***, clicks on blue Pending Validation box, clicks green checkmark and enters password in Verify user box. Click ok.
***Cannot be logged in under the Student Nurse/Nurse Tech's credentials to Validate**

- f. MAR will show medication as Complete until refreshed. Once refreshed, medication administration will be authenticated.

When NOT to use Witnessed by:

Witness functionality on the MAR is not meant for validation of routine medication administration by Student Nurses/Nurse Techs.

- o Current workflow steps to document and validate routine meds on the MAR:
 - a. Student signs meds by clicking green check mark. This puts them into Pending Validation status.
 - b. CSM Staff or Instructor (whomever observes Student) clicks on the medication and **only*** clicks on the green check mark. This completes the medication until refreshed. Once refreshed, medication administration will be authenticated.

****Note: Do not enter your name in the Witnessed by: box unless it is a med that requires a double check per policy!**

For questions, contact Kristin Schmidt, RN, Clinical Informatics, at kristin.schmidt@columbia-stmarys.org

❖ Barcode Med Administration Training

- ❑ **Barcode Medication Administration WBT**
 Who: **Nurses and Respiratory Therapists who use the eMAR**
 What: Web-Based Training Module on Learning Institute
 When: Watch your Learning Institute Learning Plan for details week of 1/6/14, completed by 2/21/14
- ❑ **Barcode Medication Administration ILT**
 Who: **Super Users and DUEs**
 What: 2.5 hour Instructor-Led Training session. Register on the Learning Institute
 When: Watch the BCMA web page for training schedules

For questions, contact Anna Mathe, Education & Training Lead, at 85-2489

❖ PowerPlan Updates

- CRRT Lab Subphase released and available
