Remember: Many answers/clarifications on EHR processes can be accessed through the EHR Intranet site or EHR Learning (Learning Live)

❖ **Stroke Ischemic Post tPA Therapy order changes** (Effective week of 8/28/17)

- Post tPA patients will remain NPO x **6 hours**
- The Dysphagia/Swallow Screen will be tasked at **6 hours**
- After successfully passing Dysphagia Screen, advance diet as tolerated and may have PO medication
- If patient fails Dysphagia Screen, keep patient **NPO**
- Speech Therapy cognitive, evaluation and treat order pre checked

This change is being made after research shows no benefit to keeping patients NPO x 24 hours. It was also determined not to be a community, state, or national standard.

For questions, contact Sue Godersky

❖ **New IView Fields Added** (Effective – 8/17/17)

As a part of ABCDEF Bundle, following IView fields have been added and will be available for documentation

1. Target Progressive Mobility Level

The screenshot shows the 'Adult Shift Documentation' interface. The left sidebar lists various assessment categories, with 'Activities of Daily Living' selected. The main window displays a table of data for the date 08/08/2017. The 'Target Progressive Mobility Level' field is highlighted in yellow, with a dropdown menu showing options: 0-1 - Bedrest, 2 - Dangle, 3 - To Chair, 4 - Ambulate, and 5 - Independent.

2. RN Updated Visitor

The screenshot shows the 'Adult ICU Quick View' interface. The left sidebar lists various assessment categories, with 'Visitor Info-Optional for Med Surg' selected. The main window displays a table of data for the date 08/08/2017. The 'RN Updated Visitor' field is highlighted in yellow, with a dropdown menu showing options: Yes and No.

3. SBT Performed – RT Only, SBT Failure Criteria, SBT Result – These fields become available with a conditional logic based on the documentation in “SBT Safety Screen Result – RT Only” section. “SBT Attempted – RT Only” field is removed to avoid double documentation.

Access * Quality * Experience * Value * Model Community
