❖ **Changes to Restraint/Seclusion for Violent Behavior Powerplan (Effective 11/10/2017)**

In order to capture accurate and consistent documentation for patients with Violent Behavior Restraint orders, nursing should contact Behavioral Health for assistance in monitoring and documentation requirements for the patient.

“Communication to RN” order will be added to the Restraint/Seclusion for Violent Behavior Powerplan. Communication order to RN - Contact Behavioral Medicine for assistance in monitoring and documentation requirements for patient while following the Violent Restraint Power Plan.

For Questions contact Paul Abegglen at Paul.Abegglen@ascension.org or Anagha Kulkarni @ Anagha.kulkarni@ascension.org

❖ **Outside Records MPage – Update (Effective Now)**

Outside Records MPage went live on October 3rd. At that time the link to Outside Records MPage was also available via banner bar. Due to some technical issues, the banner bar link is causing the EHR system to slowdown. Hence it has been decided to temporarily remove the link from the banner bar.

Outside Records MPage can still be accessed via the venue menu.

For questions please contact IS Service Desk at 414-326-2400

Access * Quality * Experience * Value * Model Community

❖ **Update to Blood Transfusion Patient Education (Effective – 11/15/2017)**

Currently, English versions of Blood Transfusion Information – Discharge Instructions(Custom) and Blood Transfusion Information(Custom) are available via Patient Education section in EHR. Spanish versions of these documents will also be available starting from 11/15/2017. Also, Blood Transfusion and Blood Transfusion, Easy to Read Patient Education documents will be removed, hence only the CSM custom Patient Education documents for Blood Transfusion will be available.

For Questions contact Patty Haugh at Patricia.Haugh@ascension.org or Anagha Kulkarni at Anagha.Kulkarni@ascension.org

❖ **Bronchoscopy Flexible Pre PowerPlan (Effective – 11/13/2017)**

The Standard IV Solutions Subphase and Insert Peripheral IV orders will be added to the PowerPlan

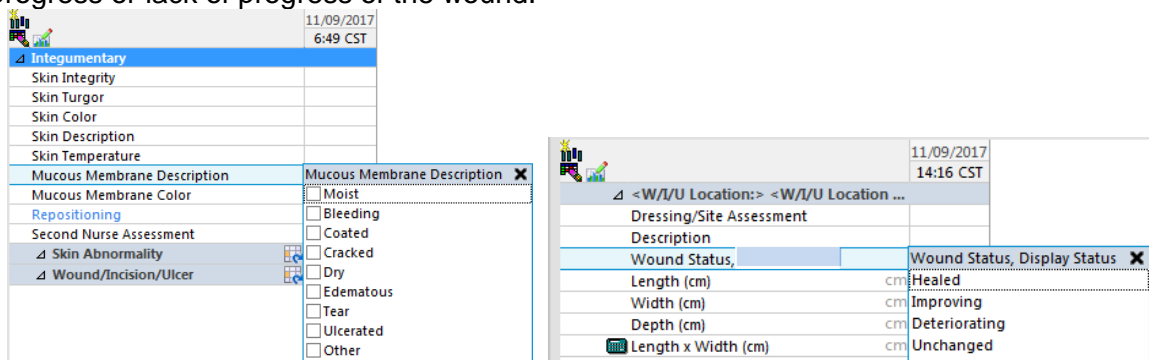

❖ **Lab Communication (Effective – 11/13/2017)**

The following Lab orderables will be inactivated (Discontinued by reference lab)

- Trichinella IgG

❖ **New assessment documentation in IView (Effective – 11/13/2017)**

❖ Two new fields have been added in IView. *Mucous membrane description* can now be documented in addition to the currently available Mucous membrane color. *Wound status* can now be documented to show progress or lack of progress of the wound.
