Pregnancy Status

LMP Date

EDC Based on

Are You Currently Breastfeeding a Child?

Have You Been Pregnant in Last 3 Months?

Palliative Care Consult Need Assessment

More than one hospitalization in 30 days for the same or related condition

Multorgan failure in ICU

Marked decrease in ADLs in a person with chronic care needs

If any of these criteria apply, consider asking the attending physician if a palliative care consult would be helpful for this patient.

EHR Hospital Communication: July 24, 2013

❖ FYI: Pregnancy Sub-tab

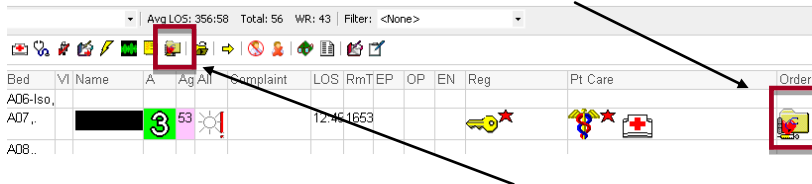

The Pregnancy sub-tab in the Histories section of the EHR cannot be flexed by gender. We cannot have it there for female patients and not male patients. If you click on the tab on a male patient, you will see that the screen is completely blank.

❖ REMINDER: Complete ED Order Entry Details
