Contact Becky Kapp if questions – Rebecca.Kapp@ascension.org

❖ Add on Lab order clarification

- Nursing Reminder:
- No need to call lab for Add on Lab Request Order.
- Lab will initiate contact if unable to add.

Contact Becky Kapp Rebecca.Kapp@ascension.org or Julie Kreckow julie.kreckow@ascension.org if questions –

❖ **New IView Fields Added (Effective – 8/17/17)**

As a part of ABCDEF Bundle, following IView fields have been added and will be available for documentation

1. Target Progressive Mobility Level

Find Item	Critical	High	Low	Abnormal	Unaut
08/08/2017 11:34 CDT					
08/07/2017 14:32 CDT					
Activities of Daily Living					
Activity					
Mobility Safety Screen					O - Oxyg...
Mobility Safety Screen Result					Pass
Progressive Mobility Level					2 - Dangle
Target Progressive Mobility Level					Target Progressive Mobility Level ✕
Activity Completed					0-1 - Bedrest
Assistive Device					2 - Dangle
Activity Assistance					3 - To Chair
Patient Position					4 - Ambulate
Head of Bed Position					5 - Independent
Time Documented at Re					minute(s)

2. RN Updated Visitor

Find Item	Critical	High	Low	Abnormal
08/08/2017 11:34 CDT				
08/07/2017 14:32 CDT				
Visitor Info-Optional for Med Surg				
Visitors				
Name/Relationship				
Visitor Participating in Care Rounds				Yes
Visitor Participating in Plan of Care				Yes
RN Present at Family Conference				Yes
RN Updated Visitor				
RT Present at Family Conference				
RT Updated Visitor				

3. SBT Performed – RT Only, SBT Failure Criteria, SBT Result – These fields become available with a conditional logic based on the documentation in “SBT Safety Screen Result – RT Only” section. “SBT Attempted – RT Only” field is removed to avoid double documentation.
