The screenshot shows an EHR interface for a 'Chiari Panel' order. At the top, there is a header with fields for Order Name, Status, Start, and Details. Below this, a table lists the order details, including the order date (05/16/2018 10:45) and specimen type (Blood). A red arrow points to a link in the table that says 'Click here for a list of all included tests.' Below the table, there is a section titled 'Details for Chiari Panel' with tabs for Details, Order Comments, and Diagnoses. The main area contains various order parameters such as 'Future Order' (Yes/No), 'Collected' (Yes/No), 'Nurse collect' (Yes/No), 'Specimen type' (Blood), '\*Requested Start Date/Time' (05/16/2018 1045 CDT), '\*Collection priority' (Today), 'Duration', and 'ONC Lab Collection Schedule'. At the bottom, there are buttons for 'Dx Table', 'Orders For Cosignature', 'Orders For Nurse Review', and 'Sign'.
