

EHR Hospital Communication: March 18, 2015

Please post / share this communication within 24 hours in your department/unit.

Remember: Many answers/clarifications on EHR processes can be accessed through the EHR Intranet site or EHR Learning (Learning Live)

❖ **Virtual Desktop – Tap & PIN Pilot (On HOLD)**

The Virtual Desktop pilot that has been communicated for CSMO and CSMM hospital-based units has been put on hold. When further information becomes available, we will communicate.

For questions, contact Anna Mathe at Anna.Mathe@columbia-stmarys.org

❖ **Resistant Alcohol Withdrawal PowerPlan - ICU Only (Available NOW)**

Reminder: New PowerPlan available for ICU, to be utilized if the Alcohol Withdrawal PowerPlan does not achieve the desired outcomes.

For questions, contact John Canepa, RPh

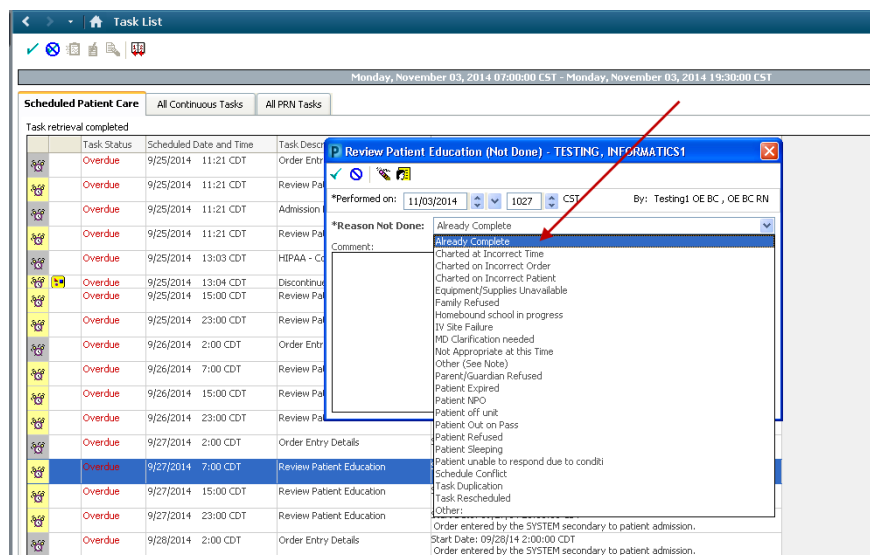

❖ **ePrescribe Downtime (Effective 3/22/15, 0400 – 0800)**

The hardware that supports ePrescribe is being upgraded in order to improve performance and reliability. This will result in a downtime of ePrescribe functions on **March 22 from 0400-0800**. Any new prescriptions entered during this timeframe will need to be printed for patients to take with them. In addition, electronic refill requests will not be received and will be sent via phone or fax.

For questions or issues, contact the IS Service Desk at 414-326-2400.

❖ **New: Task List – Reason Not Done Option (Effective 3/26/15)**

A new option, **Already Completed**, will be added to the drop down options in the Reason Not Done field when selecting the **Chart Not Done** for tasks.

For questions contact Mark Kopetsky, Clinical Informatics, at mkopetsk@columbia-stmarys.org

New Patient Access, New Processes, New Geography, New Ways to Engage

❖ **Allergies on IP Patient Summary in Depart (Effective 3/24/15)**

Allergies, including the reaction, will be added to the hospital Patient Discharge Summary in Depart.

For questions, contact Suzanne Wilkerson, MD, at swilkers@columbia-stmarys.org

❖ **Valuables and Belongings Update (Effective 3/26/15)**

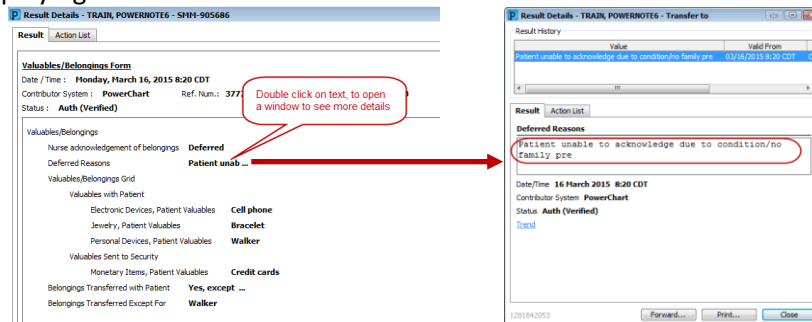

The Valuables and Belongings PowerForm will now display in the Documents widget on the Nursing Communication page. Opening the form from the Nursing Communication page does NOT allow for documenting. The document is in view-only format.

To view additional details, follow these steps:

- 1) In the Documents widget, click on the Valuables and Belongings form.

- 2) The form opens. To view more details, double-click on any bolded text area. A new window opens displaying details.

For questions contact Mark Kopetsky, Clinical Informatics, at mkopetsk@columbia-stmarys.org

New Patient Access, New Processes, New Geography, New Ways to Engage

❖ **PowerForm Change (Effective 3/26/15)**

Three new elements – **Pain Present**, **Numeric Rating**, and **Location** – will be added under the Pain Assessment banner within the **Nursing Assessment** section of the following 3 PowerForms:

- Outpatient Record
- Pain Clinic Record
- Vascular Institute Record

These elements will allow the clinician to assess acute pain (especially in an outpatient treatment area), and will flow to the Pain Assessment band in I View.

	03/13/2015	03/12/2015	03/12/2015
	13:04 CDT	12:55 CDT	14:39 CDT
Pain Assessment			
Pain Present	Yes	Yes	Yes
Preferred Pain Tool			
Numeric Rating	6	7	7
Location	Lumbar	Shoulder	Hip
Laterality
