

Please post / share this communication within 24 hours in your department/unit.

Remember: Many answers/clarifications on EHR processes can be accessed through the EHR Intranet site or EHR Learning (Learning Live)

❖ Quality Measures – Tip o’ the Week

AMI – Order

- Confirm **AMI Quality Measure** order is initiated and the measure displays on the **Widget**
 - If not, place order
 - Use communication type **Hosp Per Policy – No Cosign**

AMI – Measure Requirements

- Aspirin within 24 hours before or after hospital arrival
 - Or documented **Reason for not Ordering Aspirin** by **Provider (Physician/PA/APN)/RPh**
- ECG performed within 10-minutes of arrival
- Interpreted within 5-minutes

STEMI Only:

- Fibrinolytic therapy received within 30-minutes of hospital arrival
- Primary PCI received within 90-minutes of hospital arrival

AMI – Education: Documentation of **written**** materials given to patient/caregiver

****REQUIRED** – Patient Discharge Summary must include documentation of written education materials given to patient/caregiver for **ALL** measures

- From Patient Education tab
 - Select **Cardiology Living Well with Heart Disease** to document book given
 - Select **Cardiac Catheterization/Angioplasty (Custom)** if patient had cardiac cath
- From Ad Hoc folder open **Quality Measure: AMI Education** Powerform or open **Multidisciplinary Discharge** PowerForm (Depart or modify an existing form in Form Browser)
 - Document written discharge instructions or educational material provided to patient/caregiver

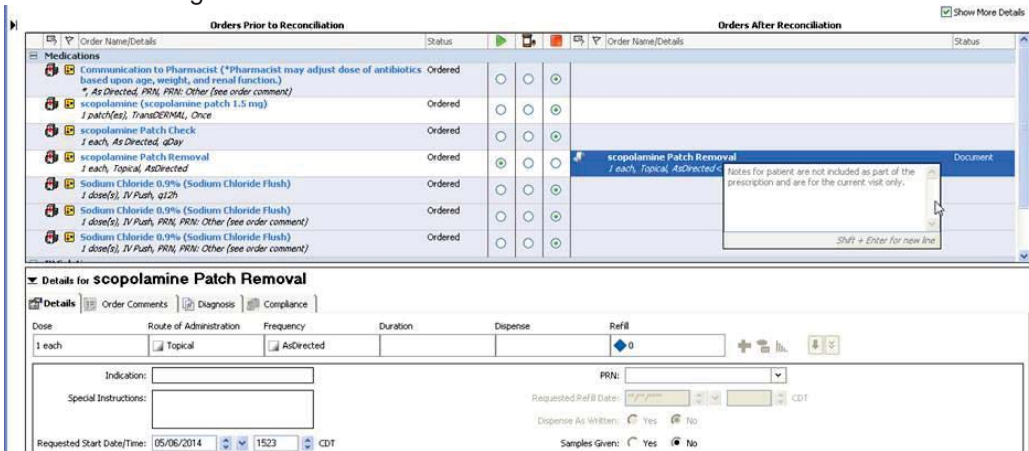

- At discharge ensure **Living Well with Heart Disease book** listed above is documented on Multidisciplinary Discharge PowerForm before Final Sign and Print

❖ **NEW - Scopolamine Patch Order (Effective 6/9/14)**

Ordering scopolamine patch will consist of using a PowerPlan subphase. There are 3 sections to the ordering process:

1. Scopolamine patch order
2. Scopolamine patch education reminder for nursing. This will populate to the PAL and Task List for those users that currently use them
3. Scopolamine patch removal order and scopolamine patch check order. These two orders will populate the MAR with 2 tasks: removal of the patch and a patch check daily. The scopolamine patch removal order will also populate on the Discharge Medication Reconciliation. Providers will need to choose “Continue” in order for the instructions and information to populate the patient medication list in the discharge summary for those patients that will need to remove the patch after they leave the hospital.

MEDICATION LIST

New Medications

scopolamine Patch Removal 1 each, Put on skin, As directed, These are special instructions, Refills: 0, These are order comments
 Patient Instructions: These are notes to patient.

warfarin (Coumadin 2.5 mg oral tablet) 1 tab(s), Take by mouth, every day at 6pm, Refills: 0

If questions, contact Sue Bode, Clinical Informatics, at sbode@columbia-stmarys.org

❖ Enhancements to Decision Support Alert Window for Drug Interaction Checking (Effective 6/9/14)

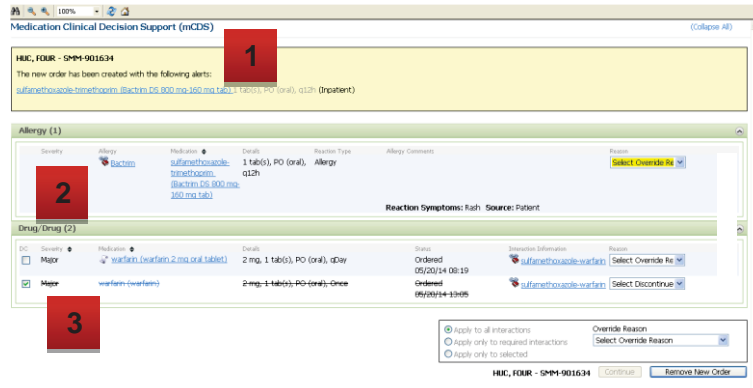

An enhancement will be made to the alert that displays when a drug interaction is identified. Most of the functions remain the same, but, in addition to a new “look” and new name “Medication Clinical Decision Support (mCDS)” there are some additional actions available within the window:

Old

1. Reference text can be accessed by clicking on the name of the medication
2. Allergy documentation can be accessed by clicking on a hyperlink
3. Severity level of interaction is written out (no icon). Major interactions color coded in red

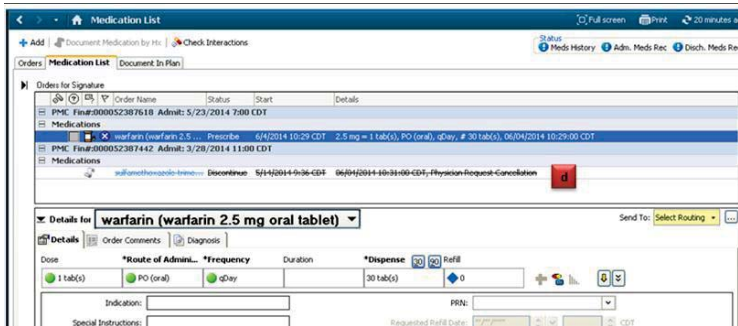

New

4. Users have the ability to cancel/discontinue medication order(s) from within the window:
 - a. Check the box in the “DC” column.
 - b. The medication and status fields now have strike-through text and the **Reason** changes to **Select Discontinue Reason**. Select the discontinue reason from the drop down.
 - c. Once a reason has been entered, click **Continue**.

- d. The item will display with the strike-through and will be discontinued when the new medication order is completed and signed.

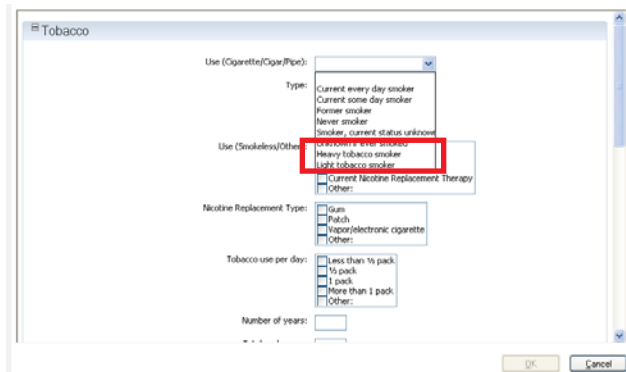

If questions, contact Sue Bode, Clinical Informatics, at sbode@columbia-stmarys.org

❖ New Additions to Tobacco Documentation (Effective 6/9/14)

New choices/fields added to Tobacco documentation:

- 2 additional choices added to **Use (Cigarette/Cigar/Pipe)**:
 - Heavy tobacco smoker - *smokes > 10 cigarettes/day, or equivalent quantity of cigar or pipe smoke*
 - Light tobacco smoker - *smokes < 10 cigarettes/day, or equivalent quantity of cigar or pipe smoke*
- 1 additional choice added to **Use (Smokeless/Other)**:
 - Current Nicotine Replacement Therapy
- A new section added titled **Nicotine Replacement Type**:
 - Gum
 - Patch
 - Vapor/electronic cigarette
 - Other:

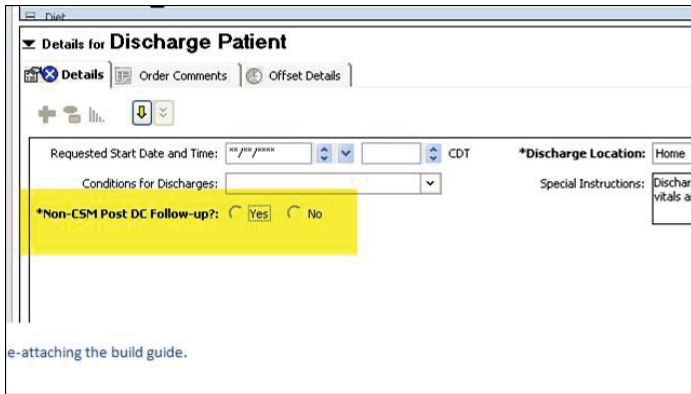

If questions, contact Sue Bode, Clinical Informatics, at sbode@columbia-stmarys.org

❖ Discharge Order Update (*Effective NOW*)

In order to assist Case Management and Medical Records in sending patient information electronically to non-CSM* providers, an extra section was placed on the discharge order that requires a yes/no answer to the following question: “Non-CSM Post DC Follow-up?”

* Any physician not employed by Columbia St. Mary’s Community Physicians or Madison Medical Affiliates is considered a non-CSM physician. Any facility other than CSM-Milwaukee, CSM-Ozaukee, River Woods, Sacred Heart Rehabilitation Institute, Orthopedic Hospital of Wisconsin, and Columbia Center is considered a non-CSM affiliated facility.

The screenshot shows a web-based form titled "Details for Discharge Patient". The form includes several fields and sections:

- Requested Start Date and Time:** A date and time selector with a dropdown menu set to "as per order" and a "CDT" label.
- *Discharge Location:** A dropdown menu with "Home" selected.
- Conditions for Discharges:** A dropdown menu.
- Special Instructions:** A text area with "Discharge vials ar" visible.
- *Non-CSM Post DC Follow-up?:** A highlighted section with two radio buttons: "Yes" (selected) and "No".

At the bottom of the form, there is a link: "e-attaching the build guide."

If questions, contact Dr. Suzanne Wilkerson at swilkers@columbia-stmarys.org
