**Remember: Many answers/clarification on the EHR documentation processes can be accessed through the EHR Intranet site or EHR Learning (Learning Live)**

## ❖ Radiology Exam Order Changes (effective Jan. 4, 2013)

Due to new charge codes needed for Radiology effective January 1, Radiology and Finance have requested that we replace current radiology orders with new orders to accommodate the new codes. Because of this change, the following 4 PowerPlans will be impacted:

- ED Altered Mental Status
- ED Generic Orders
- ED Weak & Dizzy
- Spine Surgery Post

Effective Jan. 4, 2013, the above PowerPlans will no longer function correctly if saved as favorites. It will be necessary to create **NEW** favorites.

Effective Jan. 4, 2013, the following exams are also being replaced:

Inactivate	Replaced with
XR Spine 1 View Cervical	XR Spine Cervical 3 Views or Less
XR Spine Cervical 2 or 3 Views	XR Spine Cervical 3 Views or Less
XR Spine Cervical Minimum 4 Views	XR Spine Cervical 4/5 Views
XR Spine Cervical w/ Flex and/or Ext	XR Spine Cervical 6+ Views

Also many IR Angiogram Carotid exams are being replaced with IR Carotid exams.

Old set	New Set
IR Angiogram Carotid Cerebral Bilat	IR Carotid Int Sel w/Neck w/Arch BIL
IR Angiogram Carotid Cerebral Left	IR Carotid Int Sel w/Neck w/Arch UNI
IR Angiogram Carotid Cerebral Right	IR Carotid Int Sel w/Neck w/Arch UNI
IR Angiogram Carotid Cervical Bilat	IR Carotid Com/Inn IPS IC w/Arch Bil
IR Angiogram Carotid Cervical Left	IR Carotid Com/Inn IPS IC w/Arch UNI
IR Angiogram Carotid Cervical Right	IR Carotid Com/Inn IPS IC w/Arch UNI
IR Angiogram Carotid External Bilat	IR Carotid External Sel BIL
IR Angiogram Carotid External Left	IR Carotid External Sel UNI
IR Angiogram Carotid External Right	IR Carotid External Sel UNI

**\*\* If you have any questions about the upcoming exam changes, please contact the Medical Imaging department**

## ❖ ORDERING RESTRAINTS (see attached printable job aid)

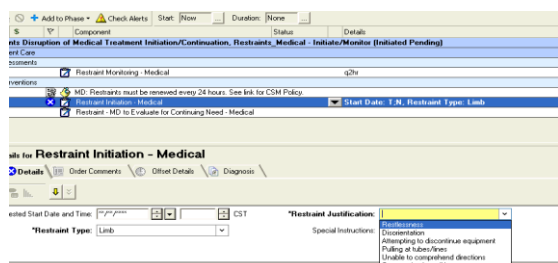

A Restraint PowerPlan must be entered for all patients requiring restraints. The Restraint PowerPlans are used to simultaneously order:

- Restraint Initiation
- Restraint Continuation
- Reminder to re-evaluate patient

Access the Add Orders Menu (shown above from the venue menu) and search for the correct Restraint Power Plan. PowerPlans are shown below with yellow Power Plan Icon. **REMEMBER:** Select the correct Restraint type when choosing a Power Plan

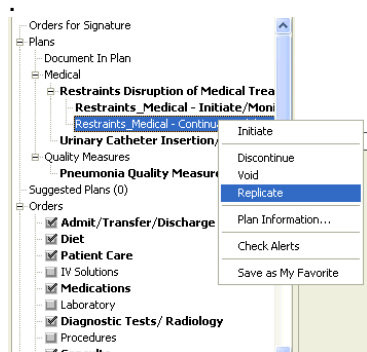

1. Select desired orders.
2. Complete Order Details in the Order Entry field, completing the indication for continuation. This will prompt you to continue the restraints as necessary.
3. Sign and initiate the PowerPlan.

## ❖ CONTINUING A RESTRAINT ORDER (see attached printable job aid)

From the order navigator, open the Restraint Power Plan and select the restraint continuation order. Right-Click the order and select Replicate. This will create a new Continuation order. Complete order details and sign.

**IMPORTANT: The reminder in the Message Center to continue a Restraint Order is *only* a reminder! The Order must be renewed from the Orders Menu in the EHR.**
