❖ **The IPOCs are coming!** *Effective February 27, 2018*

- IPOCs, or Interdisciplinary Plans of Care, allow nurses to document their plans of care within the EHR, including goals, outcomes, interventions, and progress towards goals.
- We will transition from the use of paper care plans to IPOCs beginning February 27<sup>th</sup>.
- Watch for information about Roamers, who will be available the 1<sup>st</sup> few days after go-live for assistance with use of the Plans, and to help log any issues.

❖ **New Suicide Screening** *Effective March 1, 2018*

To better meet the needs of our patients, we are moving to the use of an evidence based tool for suicide risk screening. Inpatient admission history PowerForms, ED Assessment PowerForms, and Outpatient Intake PowerForms are being revised.

The Columbia-Suicide Severity Rating Scale (C-SSRS), a simple series of questions, will be added to all the forms. A Pediatric version is also available. Staff will receive information soon on education regarding use of this screening tool. A Risk Assessment will be completed if the screen is positive.
